

Please do not weaken the No Call List guidelines. The No Call List has given our family a chance to be a family during the hours we are together. No matter what time we had dinner, we would always be interrupted by callers who don't understand what "No, thank you" means. Thank you for giving our family some peace and quiet to have family time. Again, we implore you to strengthen the guidelines rather than weaken them. We still receive some calls, but are thrilled at the difference the No Call List has made in our lives.

Thank you!!
